REPORTS NEW SOVIET SUBMARINE BASES IN BULGARIA

Belgrade -- A Bulgarian officer who recently fled from Bulgaria to Skoplje, has reported that the Soviets have intensified their preparations for war against Turkey. For example, the Communists have constructed secret submarine bases on the Black Sea shores 20-30 kilometers from the Turkish shore line. The Soviets have also established gasoline dumps and ammunition dumps among the rocky coasts for naval planes and submarines. In the event of attack on Turkey, these bases would be very useful.

The Soviets have reportedly already dispatched submarines to these secret bases. It is also understood that the transfer from Sofia to Flaven and Kolarovgrad of the operations and intelligence departments of the Bulgarian Defense Ministry is a further indication of the large-scale war preparations.
